## IN THIS ISSUE...

Newspaper Reviews, what is happening around the world, ghosts and crop circles,  
SUFOG case files round up for 2007.

Magazine reviews, The Roberts file (Part 3), UK UFO Reports in the press,  
And much much more.

## Editors Corner...

## Contents :

SUFOG is going through hard times at the moment and 2008 will only get harder. It is sad, but we as a group at our meeting on the 21st November made the following changes :

1. I am suspending ALL group public meetings in 2008 due to the poor support at them. We normally on average only have 5 - 8 people attend. It is hoped that we can look at the set-up and re-launch the meetings maybe in mid to late 2008.
2. I am suspending all group activities such as Sky watches, planned conferences etc until such time we can gain support of members to help and organize events.
3. I am also suspending the DVD library as this has not been accessed by any member for over 8 months, but again I will look at it to see if there is any way that we can attract members to use this service..
4. There will also be no further monthly group DVD draws as there will be no group meetings for this to be carried out at.
5. After December I will be stopping our Quarterly free DVD or CD Rom due to the financial loss in 2008 of £600 and the group can no longer give items away free. The cost for this was not covered by the magazine subscription, but was financed from group funds.

This will not effect the vast majority of members BUT will give us more time to focus on the magazine, the web site and publicizing the group along with trying to resolve points 1 and 2 as stated above in 2008. It is hoped that we can resurrect group events but this will depend on a number of external influences.

In 2008 the group will be financially effected with the loss of income from group meeting (£160.00), magazine purchases (£144.00) and donations (£240.00) giving a total loss of £544.00 which means that the group will have to make cut backs as stated above. These cut backs will not effect the magazine in any way and it is hoped, that I can enhance the magazine with more changes and more introductions of new ideas and formats.

I must point out that on the 2nd of December our Public Relations Officer Mr. Ernie Sears stood down from his position and has decided to leave the group. This wasn't surprising as Ernie had been indicating his unhappiness for a little while and did not come as some great surprise. To read more about his decision please turn to page 24 where Ernie explains why he has to leave SUFOG. There is a time that we all have to make decisions such as this and although he is not giving up the subject he is going to continue with his own private research into the subject.

### Parliamentary Question...

Here's another Parliamentary Question on UFOs, answered on October 29. It's about halfway down on the following link: <http://tinyurl.com/2m4wwd>

**Norman Baker:** To ask the Secretary of State for Defence whether his Department's (Air Staff)/Defence Secretariat is responsible for the evaluation of reported unidentified flying objects.

**Derek Twigg:** The Directorate of Air Staff remains responsible for the evaluation of reported unidentified flying objects, calling, if necessary, for advice from other branches.

**Nick Pope...**

### BBC News - London...

13 November 2007...

### Call For Us To Re-Open UFO File...

A group of former pilots and government officials has called on the US government to re-open an investigation into claims of UFO sightings.

Project Blue Book, run by the US Air Force, was stopped in the late 1960s.

The group, which includes former military officers from seven countries, all say they have seen a UFO or have conducted research into the phenomenon. However, the Air Force says nothing has happened in the past four decades to justify resuming investigations.

Every year thousands of people say they have seen UFOs in the United States and their claims are usually met with scepticism.

But this panel of former military, government and aviation personnel from countries around the world has urged the US government to take such claims seriously.

The group say the apparent sightings of hovering orbs, glowing lights and high-speed spacecraft are a national security concern and should no longer be dismissed.

After the attacks of 11 September, the group said in a statement, it was no longer satisfactory to ignore radar returns that could not be associated with existing helicopters and other aircraft.

The panel has called on the US military to re-open an investigation dormant since 1969, called Project Blue Book, in which more than 12,500 UFO claims were investigated by the Air Force.

For now, it seems their pleas have fallen on deaf ears - the US Air Force says nothing has changed that would support a resumption of the investigation.

But those who believe they have seen UFOs, know they have influential supporters.

Among those on the panel is the former governor of Arizona, Fife Symington, and last month, the Democrat presidential candidate, Dennis Kucinich, said during a televised debate that he'd seen a UFO.

## New Paranormal Channel...

The Paranormal Channel is a new station to be launched in 2008 on Sky Television. It is the world's first TV channel dedicated to the unknown, featuring new and classic programmes!

Ghosts, legends, folklore and the extra-terrestrial will all be featured prominently and we will be looking for experts, research groups, enthusiasts and casual fans of the genre to be involved as much as possible.

Our website, [www.paranormalchanneltv.com](http://www.paranormalchanneltv.com) has been launched and will be updated as we approach the channel's launch.

### UFO Sighting by Margaret Fry...

Margaret is a renowned UFO researcher in Wales and is a member of the Wales Federation of Independent Ufologists. She has published many articles in magazines and appeared in many newspaper articles along with television and radio interviews. She is also a very good friend and associate.

I saw a UFO on the 6th October 2007, at 4.20 p.m. Ron (Her Husband) and I went to Slaters Maintenance Shop opposite our house to get a battery for his Rover car key. The mechanic went into the office to get it. It was a clear blue sky - no clouds at all - warm - I looked up and thought "just the day to see a UFO" and there it was, in a mist, shape difficult to define, about 5 / 6 times longer than a jet (about 125,000 feet may be?) anyway it was high up and I was looking up as the mechanic came with the key and change. I paid no attention, so he looked up, said "Space Ship" and walked off into the maintenance shop. (Was he being facetious?) Anyway, I thought it will disappear - then I'm certain, & it did in a clear blue sky - they fly quite differently to our aeroplanes which cut through air, these glide like fish in water, like it's their natural environment. This happened above Abergele Market Street the Main Road, I was standing in the court yard.

## SUFOG Case Files 2007...

### **SG16/07**

9th September 07 : Portsdown Hill...

Phone call received 21.28 9th September...

Number of witnesses : 5

Duration : 3 – 4 mins

Time : 8.50 – 8.55 pm.

3 objects appeared one after the other (Seen through binoculars) forming Delta shape. Orange in color with a rear flame of fire embers, no other lights seen on objects and also no sound.

Altitude : 900 ft

Heading W – E

Phoned police who were not interested and gave a phone number in Bicester, Oxford (I assume Contact International who gave the witness our phone number).

### **SG17/07**

UFOMonthly.Com (No. 40 - September 2007)

Petersfield, Hampshire, England

Date: 11<sup>th</sup> August 2007 22.45 (British Summer Time) approx.

Approach Direction: East

Departure Direction: West Witness Direction: East

Description: My wife and I were sitting on reclining chairs in our garden so as to comfortably watch the August Perseid meteor shower. We had been gazing upwards for about three quarters of an hour, looking north-eastwards. Both of us clearly saw the craft move slowly above and to one side of us (north) parallel to our rear garden hedge. We have never seen a UFO before, and it has taken us 2 hours to find this site to report it (as we thought we should after discussion - it being so unusual). We are professional working people in our mid-50s. We also took time to look at stealth aircraft on the internet (due to this craft's lack of noise and shape), but their shapes (although similar) are not the same.

Colour/Shape: Isosceles triangle shape, silhouetted (black) against clear night sky. Steady dim, large yellowish lights in each of the 3 corners, possibly striped.

Height & Speed: Slow speed, apparently low.

Silent - no noise.

Passed over in approx 3 seconds.

### **SG19/07**

Occurred : 8/5/2007 21:31

Location: Chawton, Hampshire (near Alton)

Shape: Light

Duration: 1 minute or so

A single Small white light observed moving across night sky at a very high altitude.

Whilst outside I observed a single small white light moving across sky (VERY HIGH UP) this object wasn't a star, shooting star, Normal aircraft, or planet (not the moon) and was not a weather balloon or any other type of balloon, maybe it was a satellite perhaps you could let me know what it

may have been. I have observed GENIUNE Alien space-craft's in the past (June and July 2002 to be exact) they where above a field VERY Near to where I live and the footage I have is Proof of there existence.

#### **SG20/07**

UFOINFO Sighting Form Report

Location: Andover Hampshire

Date: 8/8/2007 12:30am GMT

Approach Direction: blue light

Departure Direction: up and down

Witness Direction: south

Description: blue light travelling up and down disappearing and re-appearing there looked to be a plane travelling towards it so it disappeared, I didn't see it again after that.

Colour/Shape: blue round orb

Height & Speed: 1,000 ft don't know what the speed would be as it was just going up and down.

TV/Radio/Press: n/a

#### **SG21/07**

UFOINFO Sighting Form Report

Location: Petersfield, Hampshire, Date: 11/08/07 22.45 (British Summer Time) approx

Approach Direction: East

Departure Direction: West

Witness Direction: East

Description: My wife and I were sitting on reclining chairs in our garden so as to comfortably watch the August Perseid meteor shower. We had been gazing upwards for about three quarters of an hour, looking north-eastwards. Both of us clearly saw the craft move slowly above and to one side of us (north) parallel to our rear garden hedge. We have never seen a UFO before, and it has taken us 2 hours to find this site to report it (as we thought we should after discussion - it being so unusual). We are professional working people in our mid-50s. We also took time to look at stealth aircraft on the internet (due to this craft's lack of noise and shape), but their shapes (although similar) are not the same.

Color/Shape: Isosceles triangle shape, silhouetted (black) against clear night sky. Steady dim, large yellowish lights in each of the 3 corners, possibly striped.

Height & Speed: Slow speed, apparently low. Silent - no noise. Passed over in approx 3 seconds.

TV/Radio/Press: Not known - too early.

UFOINFO Note: As with other similar reports I asked the witness to have a look at the UFO Balloons website to see if this is what might have been seen.

#### **SG22/07**

UFOINFO Sighting Form Report

Location: Driving on A31 from Bentley towards Alton, Hampshire.

Date: Saturday, 01/09/2007, approximately 9-9:30 pm local time

Approach Direction: Travelling Southeast

Departure Direction: Northwest

Witness Direction: West

Description: While driving home on the A31, Peter first noticed something in the sky off to the left and asked me if I had seen something as well. We pulled off to the side of the road and counted 17 orange/red lights, not flashing, moving across the sky in a type of formation at a steady clip. It was a clear night. They were silent. Someone else must have seen them!

Colour/Shape: Orange/Red ... 17 of them ... Shaped like upturned commas .. very small ... not flashing ... travelling in semi-formation.

Height & Speed: Hard to say ... maybe 100-200 mph ... high in the sky.

#### **SG23/07**

UFOINFO Sighting Form Report

Location: (at Kings Hill) in the village of Beech in Hampshire, UK

Date: on the evening of September 1st 2007 (at Dusk)

Approach Direction: not known

Departure Direction: not known

Witness Direction: not known

Description: The witness was driving her car in Beech as she approached Kings Hill (just past Beech Abbey), she observed bright lights which she thought was the star formation known as the Plough. As she got half-way down the hill she noticed that the lights were still there, were brighter and much closer. She passed a group of people who where also looking at the lights, she then stopped her car got out and took photographs off the objects with her phone (apparently these photographs where not good). She said that there were nine of these objects which were flying slowly at an altitude of 200 feet, they then went up higher into the sky, the lights faded then suddenly took off at high speed in another direction. She ruled out the objects being balloons or helicopters because there was no sound, she was initially sceptical about the existence of UFOs she said the sighting was fascinating and amazing (but was not frightening) but cannot explain what it was that she saw that night. A local RAF base said that no aircraft had flown from their base since 5 pm and the local police station had not received any reports of UFO sightings that evening.

Colour/Shape: nine bright oblong shaped objects (colour not known) observed flying in formation

Height & Speed: moving slowly at an altitude of 200 feet then took off at high speed in the direction of Farringdon (another village nearby)

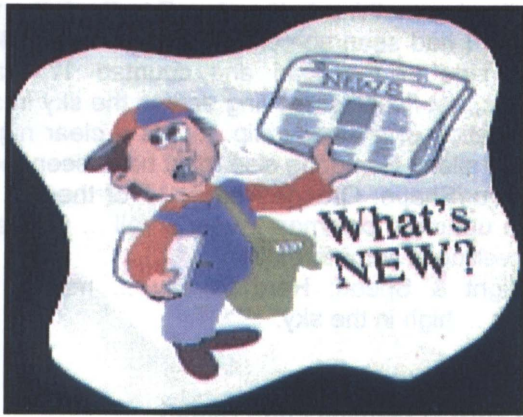

TV/Radio/Press: this sighting was reported in are local newspaper The Alton Herald

## **UK UFO Reports...**

**The Irish Times – Dublin...  
20<sup>th</sup> September 2007...**

### **Irish UFOs Blast Into The Light After 37 Years In Twilight Zone...**

If the Americans can have The X Files, then so can we. A dossier on unidentified flying objects (UFOs), kept by the Irish Defence Forces for 37 years, has finally emerged.

But anyone hoping to confirm the existence of little green men will be disappointed. The best the file comes up with are flying saucers, objects shaped like fried eggs and flashing coloured lights - some of the sightings logged in documents dating back to 1947.

The file - released to the Irish Times under the Freedom of Information Act - includes press cuttings about reported sightings of UFOs, along with classified memos and other correspondence.

In recent months, the British and French authorities opened their files on UFO sightings to the public. A spokesman for the Department of Defence said that, since 1984 the UFO file was no longer maintained by the Defence Forces.

The file up to then includes a report of a UFO sighting in Boherlahan, near Cashel, Co Tipperary, in 1984. It was "the same shape as a fried egg" and had "some kind of an aerial on top and it was brown in colour", local teenager Conor Dwyer told The Irish Times at the time. A 10-year-old boy reported it made a buzzing noise like a chainsaw and said the bright lights dazzled him.

The file also contains a classified memo on an alleged sighting of a flying projectile over a bog in Donegal in May the same year. An off-duty garda and a farmer were cutting turf near Falcarragh when they heard "a gushing sound". The garda looked up and saw a grey object travelling at speed over his head. It was shaped like a household iron with fins at the back.

The memo noted the garda was "extremely reluctant" to be interviewed but agreed after receiving assurances his identity would not be revealed. However, the garda's cover was blown a month later in Phoenix. The magazine speculated it had been a sea-launched guided missile.

An early entry in the file concerns a statement by a Cahirciveen shopkeeper and farmer in June 1947. He told

gardai he saw a circular object moving "faster than a motor car" through the sky. "It was flat and was like a big wheel or large plate . . . the rim was white and it was hollow in the centre".

Two months later, the Cork Examiner reported two priests separately saw a strange rocket-like object in the sky the same evening. A Garda superintendent wrote he was satisfied it was a shooting star: "The pressmen in Killarney like to keep abreast of the times and now that the age of 'flying saucer' has arrived, they like to keep in the news, particularly where any money can be made out of it."

---

## **Newbury Today – Newbury...**

**26<sup>th</sup> September 2007...**

### **Solved? Reporters Test UFO Hoax...**

Newburytoday.co.uk investigates possible explanation for string of UFO sightings above district.

The mystery surrounding a string of UFO sightings in the West Berkshire skies may have been solved by reporters at newburytoday.co.uk.

Reports of low flying orange lights have surfaced regularly over the last two years.

A Swindon taxi driver dropping a fare in Hungerford earlier this summer spotted four bright orange shapes in the sky, and last September a triangle of glowing lights was photographed over Greenham Common.

Witnesses saw them hover for three minutes before speeding off into the night sky.

When we reported yet another sighting of orange orbs above Greenham in mid-August, newburytoday.co.uk received an enigmatic letter claiming to solve the UFO mystery.

The package included a "UFO Hot Air Balloon" - a flying lantern designed to trick unsuspecting alien hunters into thinking ET was dropping by.

The unnamed correspondent claimed friends had released similar balloons over West Berkshire for two years, leading to a spate of reported UFO sightings phoned into newburytoday.co.uk.

In the name of science, we launched the balloon from Stroud Green with a previous UFO-eyewitness on hand. Once it had risen into the sky, it caught the breeze and appeared from the ground as a silently gliding light.

Steve Hillen - who spotted a low-flying orange light with his daughter last month - did not think it explained his previous sighting.

He said: "The ones I saw were a bigger shape, and more orangey."

But Steve Harris, of Newbury Astronomical Society, thought the balloons could offer an explanation for the UFO sightings.

"It certainly looks very impressive. The way it

flares up - somebody with a video camera could easily take a film of it, zoom in, and with distortions coming up it could look very much like a UFO.

"It could be a good contender for some of the ones that we've seen."

He said other explanations could include space junk, low flying military helicopters, or satellites.

"The International Space Station is especially bright - almost as bright as an aircraft with landing lights on," he said.

Watch us test our theory on video by clicking on the link. <http://www.newburytoday.co.uk/News/Article.aspx?articleID=5262#>

Tell us if you think this solves the UFO mystery on our Your Views page, and contact us at [newburytoday@newburynews.co.uk](mailto:newburytoday@newburynews.co.uk) if you see any other strange sights over West Berkshire.

---

### **Welwyn & Hatfield Times – Herts...**

**3<sup>rd</sup> October 2007...**

#### **'UFO Scared Me So Much I Almost Went Into Labour'...**

Mysterious bright yellow lights were seen plummeting towards a couple's house at "an abnormal speed", writes Simon Wesson.

The Bernasconis, who live in Homestead Road, Hatfield, were "scared to death" when they saw two gleaming lights which they believed were "about to crash just behind their house".

Rachel, 33, told the WHT that she had "never been so scared in her life".

"I'm 39 weeks pregnant and I thought I was going to go into labour, I was that scared.

She added: "My husband, Mark, saw two lights hovering above the houses opposite.

"At first he presumed it was an aircraft, because it looked like two wing tip lights; but after a while it was still there, so he opened the window to check it wasn't a reflection and it was at this point that he shouted for me to come over.

"I jumped out of bed and watched it hover from the open window, then suddenly the lights started to get closer and closer, within seconds we ran down the stairs and out of the door; at this point we were running for our lives!

"We got outside and it just disappeared, no noise or sight of the object, it was a complete mystery."

Rachel said that she had never believed in UFOs but this had really made her "wonder what is out there".

"The lights were too far apart to be a helicopter and they were too low and going too fast to be an airplane," she said.

"If it was a plane, we would have heard some kind of engine noise, but there was absolutely nothing.

"I just cannot explain it. I'm a bit of sceptic about these things, but those lights were irregularly bright!"

- Did you spot anything? Email us at [whtimes@archant.co.uk](mailto:whtimes@archant.co.uk)

### **The Argus - Brighton, Sussex...**

**8<sup>th</sup> October 2007...**

#### **Mysterious Lights Spark UFO Scare...**

Masses of mysterious red lights have sparked another UFO riddle.

More than 60 of the glowing orbs were spotted throbbing and hovering above Uckfield on Saturday night.

Resident Jamie Smith, 20, from London Road, thought the town was about to be invaded by aliens.

He said: "It was like something out of Space Invaders.

"My dad said to come out into the garden and what I saw was the amazing thing I've ever seen.

"There were at least 60 of these lights right above us, all in close formation. There was no way they were planes or anything like that.

"Then they moved off and just two remained. Then they too totally disappeared."

Mr Smith said the lights hovered for around five minutes before zooming off.

It the latest in a series of UFO sightings reported by readers of The Argus.

Recently published Ministry of Defence records show that between 1998 and 2006 there were 52 reports of UFOs flying over Sussex.

Did you see strange activity in the night skies? Did you take pictures or capture video footage? Email [news@theargus.co.uk](mailto:news@theargus.co.uk) or leave your story below.

### **Wrexham Evening Leader - Wrexham, Wales...**

**24<sup>th</sup> October 2007...**

#### **Did A UFO Really Crash Land Near Wrexham?**

North East Wales has been something of a hot-spot for UFO sightings in recent years, we take a look at some of the best known encounters.

A UFO enthusiast is appealing for information from anyone who was watching the skies over Wrexham on one particular night in 1974 and who may have witnessed a very strange event.

Russell Kellet, a writer for Flying Saucer Review, the world's longest running UFO magazine, is particularly interested in finding out what, if anything, happened on the Llandegla Moors on the night of February 7 1974.

According to Russell, the alleged incident occurred just 15 days after the famous 'Berwyn Mountains Incident', often referred to as the 'Welsh Roswell'.

The Berwyn Mountains incident is one of the most famous British "UFO sightings".

According to reports, on the evening of January 23, 1974, there were a number of calls made to police from across the North West of England, reporting a peculiar formation of green lights flying through the night sky.

Later, at about 8.30 pm, an unidentified, disc-shaped object is alleged to have been seen falling from the sky and crashing into the Berwyn mountain range near Llandrillo.

At precisely 8.38 pm, a minor earthquake, measuring 4.5 on the Richter Scale, was recorded and was felt in Wrexham, Chester, Liverpool and even Manchester and the Isle of Man.

Police attended the scene of the "crash", apparently expecting to find a stricken aircraft.

What they did find remains a mystery.

The incident has become the subject of much debate over the decades that have followed.

According to some reports, a convoy of army trucks passed through Chester that night and made their way to the site, immediately putting a cordon around the area and warning the police and crash investigators to stay away.

On January 25, under the headline "Mystery Tremor", the Wrexham Leader reported that "Men catching hares on the mountainside above Llandrillo, near Corwen, may have triggered off the hunt for a meteorite that began in the village yesterday morning.

"For police and RAF rescue experts now believe that the tremors that shook the village and a 60 mile area of North Wales last night and the lights seen on the mountain seconds afterwards were a coincidence.

"One theory is that the lights were caused by men hunting hares.

"The RAF search team leader, Flt Sergeant H Oldham, aged 31, said that they were unlikely to resume the hunt unless military information suggested another reason for the lights.

"Dozens of calls from as far away as Cheshire and the Isle of Man jammed police switchboards, reporting tremors strong enough to 'shake' houses.

"There were no reports of damage and no aircraft were reported missing."

Some enthusiasts have pointed to the statement of a "witness", a nurse who lived in the area and allegedly described seeing a huge object crash land, causing non-human bodies and debris to be scattered across a vast area, before being told not to say anything further "in the interest of national security".

The incident that Russell is particularly interested in finding out about happened a couple of weeks later on February 7.

According to Russell, he has heard reports that a UFO was actually engaged and destroyed by another aircraft over Llandegla.

He said that he was also privy to information that the military had, contemporaneously, set up a temporary HQ in the area.

Russell is also interested in a more recent incident - near Llangollen - on December 17, 2000.

He claims that there was a report of an aircraft crash-landing near the Horseshoe Pass made to police that day but later refuted as a hoax.

Russell, however, claims to have spoken to a man who, had been walking his dog on the pass that day and came across a "military blockade", and who was told he could not go any further.

Anyone who thinks they might have any information, regarding either "event", that could be interesting or useful to Russell, can contact him on 0560 2826901.

Other UFO sightings from across the region...

ON July 24 of this year there was a massive debate over a UFO sighting near Borrás.

A number of Wrexham residents had seen the strange flying objects, which were filmed by Leigh Williams and his girlfriend, Lynn Jones, of Borrás.

A worker from Acton, who posted a comment on the Evening Leader website, said: "I am a patrol and response officer for the Wrexham area and saw these lights while I was attending an alarm call at Acton school. These, to my belief, are unexplained.

"There is no way this was a hoax, as I would not have seen them from Acton area if they were.

"In addition, they were very high up in the air and there's no way anyone can control anything from that distance.

"There were several 'floating' in the sky in a pack, at first I thought they were helicopters or similar, however, there was no sound what so ever. Very strange and I would identify these as an unidentified flying objects. (Not saying they were aliens but definitely unexplainable)."

There were a number of explanations put forward, including the suggestion they were Chinese lanterns set off at a wedding or a party that night.

IN 2006 the Evening Leader's sister paper in Denbighshire, the Free Press, reported "the latest in a string of UFO sightings in the county".

On the evening of October 4, Sally Gavin, of Llanynys, spotted a very bright white flashing light just above Moel Famau Country Park.

She said: "It grew wider and wider and consisted of three lights which flashed on and off like Christmas tree lights before disappearing. I called a friend who lives in Gellifor and would have a better view and he confirmed he, too, could see the red light."

Five people, including Sally's brother-in-law, saw the strange light and reported the details to North Wales Police, who told them it might have been caused by the Army or someone out hunting.

Sally, however, was sure this wasn't the case.

She said: "It definitely wasn't a plane or a helicopter. The lights were far to big and bright."

IN July 2006 Barry Davies, 49, was left "mystified" after watching a strange object over the Dee estuary near Flint.

Barry was at his partner's house near Flint Castle at 11 am on Saturday, when his sister phoned, claiming a strange object was flying overhead.

Grabbing binoculars, he saw a large object, which he described as a 'long black sausage', flying over the Dee towards the Wirral.

According to MOD records there was a report

of a UFO over Wrexham on March 30, 1998, at about 11.20pm.

It was described as a "large, square-shaped, very bright object. Blue-ish with lights around it. There was a humming sound and a nasty smell".

**The Islington Gazette – London...**  
**24<sup>th</sup> October 2007...**  
**My Close Encounter With UFOs**  
**Over Islington...**

Surreal photos capture what one man believes are visitors from outer space darting through the skies above Islington - the second UFO spotting in the borough this year.

Dennis Gray, 33, a car dealer who lives in Sebbon Street, Islington, has told of the "deep sense of calm" he felt after capturing the startling images from his front window.

He claims he saw a floating orb and a triangle shaped craft hovering above the Angel in broad daylight.

Though initially worried about speaking out in case he became the "laughing stock of Islington", Mr Gray has decided to tell the world about his "close encounter".

He said: "I looked out of the window and saw this sphere pop out from behind a cloud and start zooming across the sky. It was like it was watching me, but I was not scared at all. It looked a bit like a meteorite, but then it started drawing pictures in the clouds.

"I never believed in all this sort of stuff before it happened to me. I told my friends and they thought I was having a laugh. But when I showed them the photos they were all amazed."

It is the second time this year that mysterious objects have been seen above Islington. In February Archway was brought to a standstill by a "squadron" of floating lights, although many believe they were no more than glowing balloons.

Mr Gray said: "When the Archway sighting happened a lot of people thought they were lanterns and I can accept that. But what I saw was no lantern. I had contact with an alien being - I'm sure of it. I felt a comfort like no other."

One of the photos appears to show a meteorite-like streak of flame in the sky, while Mr Gray says two figure-like shapes in the clouds were the result of the craft's artistic endeavour.

Paul Southcott, of the Islington-based UFO and Supernatural Studies group, has over 30 years experience in the field and thinks the sighting should be taken seriously. He said: "Amber orbs are often followed by a triangle in the sky. That makes me know he is not mucking about. It sounds like a proper sighting to me."

But he admitted that a UFO doing "paintings" was completely unheard of, adding: "I have never heard of them painting pictures - that's a new one. I would be happy to talk to him about his experience though. Sometimes people get a bit stressed out after a sighting and would like someone to help them through it."

**Aliens Attack Earth – Official...**

Village Fires Blamed On UFOs...

A series of bizarre fires in a village were caused by aliens testing weapons, Italian government officials believe.

A report into the unexplained fires in fridges, TVs and mobile phones blamed creatures from outer space.

Canneto di Caronia was the centre of world attention three years ago after residents reported everyday household objects bursting into flames.

News footage at the time showed electrical appliances, cookers, a pile of wedding presents and items of furniture smouldering.

Dozens of experts, including scientists, electrical engineers and military personnel, arrived in the village on Sicily, 60 miles east of Palermo, to investigate the phenomenon.

Arson was quickly ruled out and at one stage an amazed scientist was interviewed after he described how he saw an unplugged electrical cable burst into flames. Locals were quick to blame supernatural forces.

At the time, the Vatican's chief exorcist, Father Gabriele Amorth, agreed, saying: "I've seen things like this before. Demons occupy a house and appear in electrical goods.

"Let's not forget that Satan and his followers have immense powers."

Now an interim report by the civil protection department into the strange goings-on has been leaked and published in several Italian newspapers. The investigation has so far taken two years and cost around £1 million

It concludes that the most likely cause was "aliens testing secret weapons".

The conclusion that aliens were responsible was supported by the testimony of numerous residents who claimed to have seen UFOs overhead at the time of the fires.

According to the report, the fires were "caused by high-power electromagnetic emissions which were not man made and reached a power of between 12 and 15 gigawatts".

The report also contains details of a possible UFO landing close to Caronia after "burnt imprints which have not been explained were found in a field".

Yesterday, Francesco Mantegna Venerando, Sicily's civil protection chief, said: "This is not the final report. We are still working on our conclusions and this has been leaked.

"We are not saying that little green men from Mars started the fires but that unnatural forces capable of creating a large amount of electromagnetic energy were responsible.

"This is just one possibility. We are also looking at the fires being caused by testing of top secret weapons by an unknown power who are also capable of producing an enormous amount of energy."

Last night, the town's mayor Giuseppe Collura was unavailable for comment.

**The Chichester Observer – Sussex...  
15<sup>th</sup> November 2007...  
UFO Report – RAF Did Send Fighters Up...**

A UFO spotter from Felpham has appealed to anyone else who saw the objects to contact him. Leo Lindsay and his wife, Rosie, watched the visitors from outer space from a bedroom window.

Mr Lindsay has since had unofficial confirmation from the Ministry of Defence that two RAF planes were sent up to investigate the phenomenon.

"The RAF don't do that unless there is a real reason," he stated. "I can't believe no one else saw the objects. I would estimate they were each about the size of a house.

"Anyone walking along Felpham seafront at that time would not have been able to miss them. I hope they will let me know on 01243 855728."

Mr Lindsay estimates the objects must have been above Felpham seafront in a beautiful light blue sky with white puffy clouds. He was looking out of a bedroom window in his home in Roundle Avenue at about 6pm on October 4 when he saw 'two round football-shaped objects' coming over the trees high in the sky.

He went downstairs to tell his wife. He watched as the objects changed to become 'multi-faceted diamond shaped discs which moved further apart'.

The fighter planes appeared on the scene ten minutes later. Two aunts staying with the couple also saw the incident.

**The Bexhill-On-Sea Observer, Sussex...  
20<sup>th</sup> November 2007...  
Dog Walker Spots UFO...**

Has anyone seen a mystery light hovering over Cross in Hand?

Local resident Lynnda Rose contacted the Express to describe the strange sighting.

She said: "I was out with my dog and noticed a light above the field moving in a circular motion.

I can only describe it as looking like an oval, thick mist which was quite bright."

Lynnda said she watched it for about another 20 minutes, then went to get her camera.

"Yes," she said. "You've guessed. Nothing came out."

The light then descended out of sight. She ran upstairs and watched it from the window while it continued in the same motion for about twenty minutes, then disappeared.

Lynnda added: "I've never seen anything like it before and can find no explanation.

I thought perhaps it was a searchlight or a laser but there was no beam so this had to be ruled out.

I must say I don't believe in little green men, ghosts

or the like and have had the mickey taken by everyone I have spoken to so I hope I am not the only one who spotted it."

If you saw the light or can offer an explanation ring the Express on: 01273 484736 or email [sussex.express@sussexnewspapers.co.uk](mailto:sussex.express@sussexnewspapers.co.uk) - we'd like to hear from you.

**The Sussex Express – Lewes.  
23<sup>rd</sup> November 2007...  
UFO Riddle Solved?**

An Express reader thinks she has the answer to a UFO riddle which has been puzzling people.

Carole Smith from Maynards Green said she also saw lights in the sky seen by several others as she drove from her home to Herstmonceux.

She said: "Looking in the sky I could see these round things with no beam going round and round.

But when we drove through Horam you could see the beam.

There was a party at Horam Village Hall and this big spotlight thing was outside.

As we drove back past Broad Farm on the Heathfield Road this car suddenly slowed down because it could see the lights.

It was a bit spooky." Horam Village Hall Committee confirmed there was a party at the hall that night which was booked by children's hospice Demelza-James.

Demelza-James confirmed there had been a fundraising event at the hall that night which could explain the sightings.

Matthew Everest and his son Harley, 7, also saw the lights.

He said: "I was coming back from Eastbourne through Lower Dicker.

It was one light to start with then they were all over the sky, it was quite eerie.

My son saw them too and he was quite agitated."

**HAPPY  
NEW YEAR  
ONE AND ALL...**

**PRESS RELEASE:**  
**30th October 2007...**

Independent Presidential Candidate Vows Investigation, Cooperation & Transparency.

Independent Candidate for the Presidency of the United States, Brad Lord-Leutwyler today informed over 1,000,000 of his supporters that when elected, he will appoint a special commission to investigate the UFO phenomenon and to declassify millions of relevant documents now in government possession. He suggested that Stanton Friedman would be a possible choice to head the commission.

"There is significant evidence available to infer that there are events occurring which warrant open investigation. These events, witnessed by military pilots, airline pilots, citizens of the U.S. and abroad indicate that these unknown phenomenon are of such a nature that investigation would lead to a better understanding of these events, and possibly to deeper insights into nature and human psychology. The government has been compiling data about many of these events for decades, and with limited exception, keeping the truth from the American People is no longer tolerable nor is it acceptable."

Inquiries are welcome Contact Brad Lord-Leutwyler with questions at - VOTE-FORBRAD@gmail.com ALL inquiries will be handled by the candidate personally Visit : WWW.VOTEFORBRAD.COM

**November 26, 2007**  
**Press Release**

Re: 1993-1996 Rockefeller Initiative to end the government imposed UFO/ET truth embargo PRG publishes to the Internet documents from the Office of Science and Technology Policy (OSTP) during the Clinton administration confirming the Rockefeller Initiative

Washington, DC – Today Paradigm Research Group placed on the Internet documents from the executive Office of Science and Technology Policy obtained under the Freedom of Information Act by Canadian researcher, Grant Cameron. These documents confirm the effort by billionaire Laurance Rockefeller to persuade President Bill Clinton to begin

releasing to the public government held information pertaining to the UFO phenomenon and extraterrestrial life and to provide amnesty to government employees wishing to come forward and testify regarding relevant events and evidence. These documents are located at: <http://tinyurl.com/2o526u>

Rockefeller's move to effect "disclosure" lasted from March 1993 through 1996. Researchers aware of this effort commonly refer to it as the "Rockefeller Initiative." While the Initiative itself was not successful, it did lead to engagement of the UFO/ET issue by Associate Attorney General Webster Hubbell, Congressman Steven Schiff, John Podesta, Governor Bill Richardson and others right up until the present time.

The nearly four-year initiative included 1) strategy meetings of researchers held at Rockefeller's JY Ranch in Colorado; 2) meetings between Rockefeller and President Clinton and Hillary Clinton at the JY Ranch; 3) the commissioning of numerous reports and white papers, including an extensive study titled "Unidentified Flying Objects Briefing Document: The Best Available Evidence" by Don Berliner and Antonio Huneus; 4) document requests and searches within the Clinton administration; 5) an important symposium, "When Cosmic Cultures Meet"; 6) considerable correspondence between public and private entities, and much more.

Many more Initiative documents are in the hands of other agencies, private citizens and the Clinton Presidential Library. Researcher Grant Cameron early on filed extensive FOIA requests to obtain relevant documents from the Clinton Library, targeting Bill and Hillary Clinton, John Podesta and others. It is these requests which have recently been referred to on CNN and in several newspaper articles.

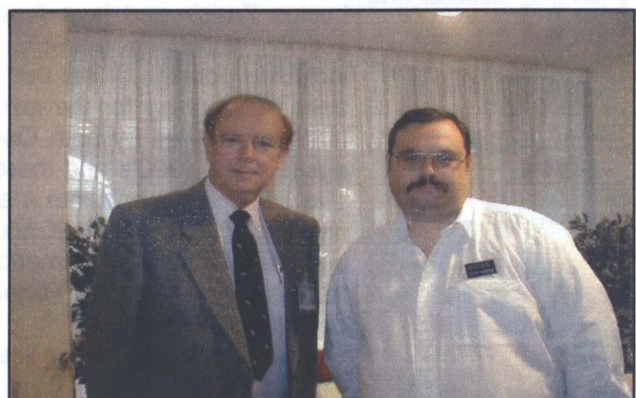

While the recent questions posed to presidential candidates during debates and campaign stops is encouraging, it is and must be just the beginning of extensive queries to all candidates regarding their knowledge of and intensions toward what is easily the most important issue of this or any other time in history. Furthermore, PRG can state with high confidence the answers so far being given to these questions are evasive and mendacious.

It is imperative that all journalists covering the 2008 election campaign review the Rockefeller Initiative documents. Then PRG suggests reviewing the Media, Quotes and Video archives portaled at: [www.paradigmresearchgroup.org/main.html](http://www.paradigmresearchgroup.org/main.html). The most important news story in history awaits.

**Leeds 2001-Omar Fowler (L) & Steve Gerrard (R)**

## MAGAZINE REVIEWS : Steve Gerrard.

**Vol. 29 No. 1 November 2007...** Contact International UFO Research... This small, A5, 33 page magazine is packed full of articles, reports and sightings. There are some interesting articles and the Editorial starts with 'Time for disclosure'. The article looks at the release of material in the UK and says that there is no evidence for the Mod to have structured craft UFO's or alien bodies hidden away in a secret bunker deep in the countryside. True, but what about where-else in the world? The planet is a big place and there are places that we haven't even searched i.e. we have only investigated 10% of the world's oceans. We are finding new species deep in jungles that were thought to be extinct. I think sometimes we have to think and look at the wider picture. I am NOT saying that the MOD does have such material, but maybe not in this country?

Anyway, There is a look at the mystery crater in the Peruvian desert that had the UFOlogists thinking due to locals becoming ill, but nothing was found. There is an article about the missing girl Madeleine McCann & conspiracies. Sorry, But I feel this is not the place for such a subject to be discussed as I see no conspiracy. I see no reasoning for a periodical to include this as I suppose the conspiracy freaks will start

saying that the government know where she is! On the planet Zog after being abducted by the Zogralites!!!! The poor girl has been abducted by some poor, deprived freaks that need stringing up, no more, no less. There is a look at the recent UFO cases received by Contact International From Hampshire (Basingstoke Gazette), Buckinghamshire, Oxfordshire and Worcestershire just to name a few places.

There is the 28th Year, crop circle report 2007, with a listing of the UK formations, April - Aug totalled 50 formations, and reported world-wide formations totalling 94 formations. The article gives a good over-view of the season with a look at formations reported in Oxfordshire of 3 formations. There is an article entitled 'UFO's from the centre of the Earth' written by Brinsley Le Poer Trench and takes up 10 pages of the magazine. Finally, there is an obituary to the late Gordon Millington who died at the age of 85 in October 2007. So, a great publication with some very interesting items. If you want to find out more, then Contact them : Email [fc@fcaccs.fsnet.co.uk](mailto:fc@fcaccs.fsnet.co.uk) or visit their website [www.contactinternational.co.uk](http://www.contactinternational.co.uk) or write to : Contact International Po. Box 23, Wheatley, Oxon, OX33 1FL. Subscriptions are £9 for 4, £14 for 8...

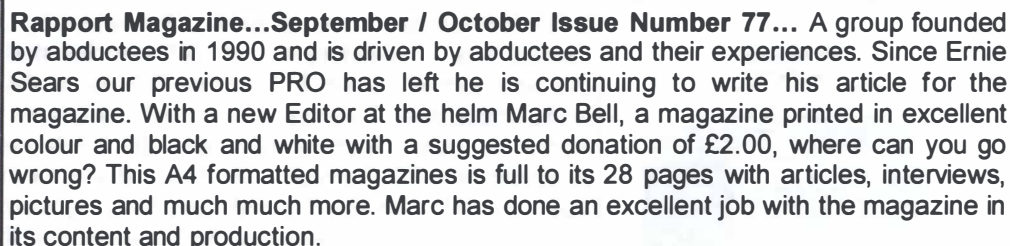

**Number 47, November 2007...** Published by East 2 West UFO Society, based in Scotland and a great magazine that contains articles downloaded from the internet from such sites as The National UFO reporting Centre, MUFON and items from Nexus Magazine. There is a look at a case of a Kentucky coal train hitting a UFO Disc in January 2002. The next item looks at an encounter in 1989 two Russian truckers that encountered a UFO in-front of them and one of them being invited on-board the craft. There is a description of the craft and what the trucker saw 'Shimmering light', 'corridors with no doors', 'panels of flashing lights', 'shown a star map' and much more. Other articles include 'UFO's & Alien beings encountered in North Carolina 08/01/2007, Nurse reveals alien experience, Fames NASA astronaut confirms Extraterrestrials are here & California airplane pilot reports UFO October 8th 2007.

**UFO Newscipping Service... Number 460, November 2007...** Published by Lucius Farish and is a fantastic source for information in the press and UFO activity, published monthly at a subscription cost of around \$80.00 (£40.00) including postage. I feel that this is a MUST for any serious UFOlogist and I have been subscribing for the last 3 years or so. This is similar to the cuttings service that was offered by both Quest International in the 1990's and by Timothy Good again in the 1990's and there is nothing comparable published like this in the UK. The cuttings are split into 4 areas... Press items from the American press, Foreign news mainly from the UK and is a great source, Translations of foreign newspaper but mainly from South America, Spanish-language newspapers and media sources. And the final section is Fortean News looks at Monsters, Bigfoot, and anything to do with Fortean News.

For more details drop a line to Lucius Farish, #2 Caney Valley Drive, Plumerville, Ar 72127-8725 USA.

The front cover gives away some of its content with such topics as crop circles, book reviews, experiences, Atlantis, Sightings and that is not just all. There is the usual editorial and on the opposite page a news flash of current items hitting the news... There is a communist correspondent in Bratislava who, whilst visiting a castle takes photographs of a UFO over the Small Carpathian Mountains and was in the direction of a Slovak military installation...Hmmm. There is a re-visit to the famous Kelly Hopkinsville case in August 1955 where a family were surrounded in

Nov/Dec. 1987

12" x 9" US \$ 4 (can. incl. pp) Minden Press

**Ovni... November / December 2007...** The Journal of the Phenomenon Research Association edited by Omar Fowler who I have known for a good few years now. This A4, 14 page publication is one of those magazines that is the backbone of British UFOlogy. It is funny, out of all the magazines I read and will be reviewing in the future very few cover BRITISH material. Omar does a great job in plugging this weeping gap and we need MORE magazines that do this and not take chunks from UFO group web sites in America or from around the world. Omar starts this issue off with a review of 'The Roswell 60' Conference' held in Pontefract and organised by UFODATA magazine and Russel Callaghan. For me, Roswell should be put to rest once and for all. All the so called NEW DVD's just refer back to or dig up the old stories and the people to make the DVD watch able. It is good to see those involved in the incident in the pink as to say, but how much more must we go on and on about a case where all (or nearly all) are no longer with us and people come up with material that cannot be confirmed or denied, you just end up going round and round in circles. All I can say from a personal statement is 'Roswell, R.I.P'... Omar does a great review, with colour photos of the major speakers including Donald Schmitt. Michael Hesemann and Jesse Marcel JNR. Also, the dreaded

There are recent UFO reports from Nottingham & Shrewsbury and mystery rays of lights on the Yorkshire Moors. An article reproduced from the Northumberland Gazette of the 11th October 2007 reports a sighting of a pair of flying triangles over the Alnwick Moors. Another interesting item along with photographs, was of UFO photographed at the Duxford Air Show on the 9th September 07. The problem is, the object is a very small black dot and even enlarging the image, makes it no clearer. Is it a bird, is it a plane, well you will have to buy the magazine and make your own mind up. There are many other items that make interest reading in a 1952 page from Project Blue Book, Ex-defence minister joins search for aliens, emergency space walk thriller, Ripley UFO report 19th October 07. Finally there is an obituary to the late Gordon Millington. All in all, a great read and for more information, contact Omar Fowler, 94 The Circle, Sinfin, Derby. Email : Bontor@aol.com or visit the website at <http://www.phenomenonresearch.com>

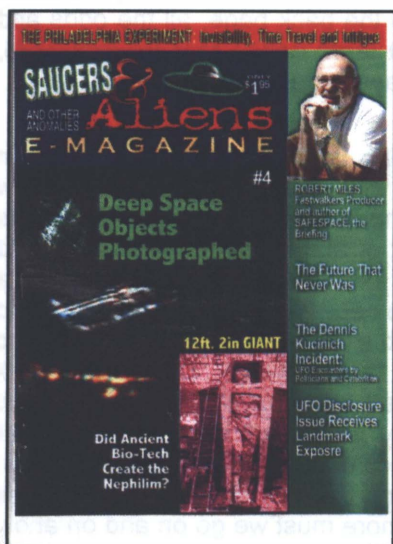

**UPRI Newsletter... No. 3 2007...** Published by UFO & Paranormal Research Ireland is an interesting mix of UFO articles and press cuttings with a bit of the paranormal thrown in the mix. This is an A4 format, 24 page black and white magazine. This issue kicks off UFO's in denial Eireann : Fine Gael leader to query Irish government on UPRI research... and Irish military releases its 'UFO Dossier'... Sort of... It seems that governments just want to open up, with French, Spanish and Italian governments opening their files of alleged UFO material recently. No it seems that the Irish Times carried a front page article on the 20th September to this effect that the Irish defence forces had just released its intelligence file on UFOs, following a FOIA request. But, the reports they released on the face of it, were just low grade UFO sightings and reports. They have reproduced newspaper articles with headlines 'I boasted a bit, but I DID spot a UFO' and 'Army lifts lid on Irish UFO sightings'

There is a full report by Dermot Butler on the September 4th International Irish UFO Conference, held at Carrick-On-Shannon. This is a 10 page review of the event, speakers, lecture and more. Speakers included, David Coggins, Ellis Taylor, Breege Walsh, Yvonne Smith, Jane McCarthy, Malcolm Robinson and Paola Harris. It appears that the conference was a great

success and it is hoped that future conferences are just as successful.

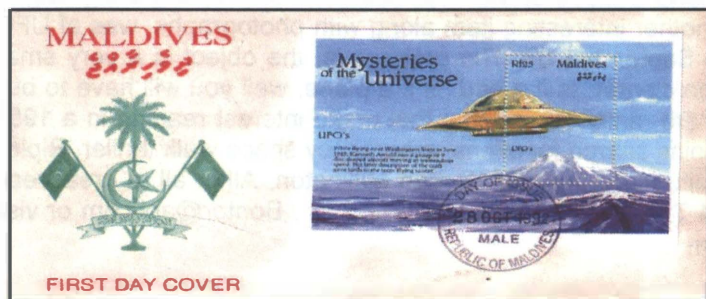

The magazine includes 4 pages of re-produced press cuttings covering such things as 'Hospice cat can predict death', '376 trillion miles away, a sign that we may not be alone', 'Haunted at School', 'Big cat in Co Tyrone', 'A hotel with loads of space - just 3m Euros for a three-day stay (Space hotel)', 'Secret pictures of Moon on net', 'Irish perpetual motion machine on display' & 'Beware of the fairies road rage'... As you can see, a real mix of items across the board. All in all a very interesting read. For more information contact : The UFO & Paranormal Research Ireland, Po Box 7041, Harmonstown, Dublin 5, Ireland. Email : [upri@oceanfree.net](mailto:upri@oceanfree.net)

**Saucers & Aliens and other anomalies E-Magazine No. 4 2007...** The internet seems to be the place to sell your magazines on. Publications such as BUFORA, and in the very near future Magonia have or will be going from the magazine through the post box to downloads on the Internet. A good or bad thing? I personally think it is bad in that not everyone has access to the internet. I have met and known many people who want their magazine via the post as they look forward to it dropping onto their mats and also you can pick up a magazine, read it and put it down again. With an internet version, you have to turn on the computer, wait, then have square eyes after reading it. Also there is the cost to print the magazine. Some printers, to print a full colour magazine, 4 issues could cost in the region of £30.00 due to the small ink cartridges and the extortionate cost to buying ink cartridges. So, what is better, Internet or post? Personally, SUFOP will never be published on the internet and become a download magazine as the main reason is that it is published using Microsoft publisher and is not a package that the majority of PC users will have.

Anyway, the magazine... The other advantage is once it is on the internet it can be downloaded by a lot more people and you can charge a small amount

hoping that a lot of people will download. You have not overheads, postage, paper or ink, just your time to put the magazine together. So, it is not surprising that this magazine costs a staggering \$1.95 which means less than a £1.00 per issue (£1 = \$2.02). This colourful issue looks at UFO disclosure issue receives landmark exposure, Deep space objects filmed, UFO encounters by politicians and celebrities, the Philadelphia Experiment : Invisibility, Time Travel & Intrigue and Walter Cronkites UFO Encounter. You get a great deal for a little expense. You can order the issues over the internet and pay using PayPal which makes it even better. To have a look at a copy on the internet and download a copy, go to [www.theUFOstore.com](http://www.theUFOstore.com)

In the next issue of the SUFOP magazine (March 08), I will be looking at a subject that I am also very interested in - UFO's on postage stamps. UFO's on postage stamps I hear you say and yes as shown on the left with this first day cover from the Maldives of 1992 with a miniature sheet featuring a series of stamps - Mysteries of the universe with Kenneth Arnolds 1947 sighting. So the series will look at UFOlogy and the postal services of the world.

I have left the best to last, namely UFODATA Magazine November - December 2007. Unfortunately I was hoping to review the free DVD that subscribers would receive if they subscribed by the 31st of December. The DVD - Roswell 60 is a complimentary DVD of the events key lectures from the 2007 Pontefract UFO conference, organised by UFODATA and editor Russel Callaghan but unfortunately the British postal service has let me down. Also from this event, UFODATA is offering 5 DVD's of lectures from the event for the price of only £24.95 or if you re-subscribe, then you pay only £19.95 for 4 DVD's plus your free copy when you subscribe. Not that must be the bargain of the year, mustn't it?

Anyway, back to the magazine... IF I had a criticism of the full colour, glossy, A4, 67 page publication, then it is as follows (Well 2 really). Firstly, there is a lack of UFO reports, the bread and butter of British UFOlogy which is sadly missing from the publication (and previous issues I must state). In fact apart from the inside cover of the back page, there isn't any other UFO CURRENT UFO reports. Also, there is no mention of British UFDO groups, contacts etc anywhere in the magazine. Yes, I appreciate this is looking back at the fine Pontefract conference - Roswell, 60 years on, but, we need much more British cases, group contacts and British groups input into this great publication. If and I hope Russel is aiming for this to equal UFO Magazine that he produced along with the late Graham Birdsall, then it NEEDS British groups and

cases / reports input. I must admit I personally think Roswell should be laid to rest on the principle as there are very few witnesses around still, and those that are, it becomes more and more difficult to validate their stories. The magazine can only go from strength to strength with the announcement that Gary Heseltine has joined Russel as joint editor after he closed down his publication UFOMonthly.Com to join with Russel

This issue covers the conference in great detail with 11 pages looking back on what appeared to be a successful event. There are some great articles with a look at a UFO discovered in military training film over Israel and can be viewed at the BBC web site or YouTube. Like all bits of footage etc it looks too good to be true, but maybe it is? There is a very interesting article by Steve Johnson 'Man made UFO's : World War 2's secret legacy'. Find this very interesting as I have a great interest in Germany's History as well as Hitler. Did the Nazi's build a 'UFO', they certainly had the blue prints which the Americans recovered so was this in fact what crashed at Roswell - An American blue print taken from the Germans of WW2 and test flown in Roswell? I suppose anything can be possible as far as Roswell is concerned.

Gary Heseltine wades in with his first article and the 2004 - 2007 case reviews of Police Officer sightings. Even SUFOG has credit to 2 cases that happened on two of our skywatches a year apart virtually to the day. Whilst doing skywatches in Netley Abbey, when the Hampshire Police spotter planes observed on both occasions to approach mystery objects that we had been observing, then the plane departed the area. After contacting Hampshire Police, they confirmed that the spotter plane was airborne and in the vicinity on BOTH occasions, but they saw nothing and even tried to say that one of them was the planet Venus - must of been pretty close for an airplane to fly AROUND IT! Gary gives a convincing list of reports of police officers sighting, now if we cannot trust a policeman, then who can we trust.

I hate returning again to Roswell, but there is an in-depth interview by Philip Mantle with Jesse Marcel JNR, the son of Major Jesse Marcel, who after going to the crash site, recovered some of it in a cardboard box and took it home. Jesse Marcel Jnr remembers seeing an 'I' beam with mysterious symbols on it and to this day has stood true to his beliefs in what he handled and what he saw. Jesse has only over the past few years started to give lectures and he gave an interesting lecture at the 2007 Denver Colorado conference and he is one of the last remain people alive who was there when it happened... Nick Pope has his own column in the magazine and brings a different twist to Roswell... If Roswell happened today (Part 1) He gave this as a lecture at Pontefract in 2007 but he puts into words to try and explain what the MoD would do now!!! I know, Fake wreckage, press conferences, men in black suits and dark glasses... Well nick look sat 4 scenarios, 1. Alien invasion 2. Technological superiority of the invaders 3. Detection of a signal via radio astronomy 4. UFO Crash. So what would the government do in these situations - if it was the Americans - Bomb the B\*\*\*\*\*S, the British - Anyone for tea and cucumber sandwiches... To be honest I don't think anyone knows how to deal with these scenarios because they are too much for the human brain to deal with... **CONTACT WITH ANOTHER NON-HUMAN RACE...**

UK National  
NEWSPAPER Items

The Daily Telegraph,  
29<sup>th</sup> October 2007...

Aliens Caused Sicily Fires  
Say Officials...

Aliens were responsible for a series of unexplained fires in fridges, TV's and mobile phones in an Italian village, according to an Italian government report.

Canneto di Caronia, in northern Sicily, drew attention three years ago after residents reported everyday household objects bursting into flames.

TV news footage at the time showed electrical appliances as well as cookers, a pile of wedding presents and furniture smouldering.

Dozens of experts including scientists, electrical engineers and military boffins, arrived in the village 60 miles east of Palermo to investigate the phenomenon.

Arson was quickly ruled out and at one stage an amazed scientist was interviewed after he described how he saw an unplugged electrical cable burst into flames.

Locals were quick to blame supernatural forces and at the time the Vatican's chief exorcist Father Gabriele Amorth backed up their fears and said: "I've seen things like this before. Demons occupy a house and appear in electrical goods. Let's not forget that Satan and his followers have immense powers."

Now in an interim leaked report published by several Italian newspapers it has emerged that the Civil

Protection Department has concluded the most likely cause was "aliens".

The report was ordered by the Italian government and brought together dozens of experts including a NASA scientist. Their two year investigation has cost an estimated £1 million.

According to the report the fires were "caused by a high power electro magnetic emissions which were not man made and reached a power of between 12 and 15 gigawatts."

The report also detailed a possible UFO landing close to the village, citing "burnt imprints which have not been explained were found in a field."

Francesco Manteno Venerando, Sicily's Civil Protection chief who co-ordinated the report, said: "This is not the final report. We are still working on our conclusions and this has been leaked."

"We are not saying that little green men from Mars started the fires but that unnatural forces capable of creating a large amount of electromagnetic energy were responsible."

"This is just one possibility we are also looking at another one which involves the testing of top secret weapons by an unknown power which are also capable of producing an enormous amount of energy."

NASA Told To Solve 'UFO Crash' X-File...

For four decades, residents of the tiny Pennsylvania town of Kecksburg have told their story of strange blue lights in the sky one winter's evening and a fireball crashing into woods.

On 9 December, 1965, they say, they saw armed soldiers cordoning off the area and a large metallic acorn-shaped object bearing strange hieroglyphics driven off at speed on the back of a lorry. They talk of menacing plain-clothes officials visiting homes and warning local people not to tell anyone of what they saw.

Until now the US government has denied that anything sinister took place. It has maintained that a thorough search of the woods by the air force, the only federal agency to have acknowledged it was there, found nothing. But now NASA has been ordered to examine its X-Files to solve the mystery.

Steve McConnell, NASA's public liaison officer, has admitted two boxes of papers from the time of the Kecksburg incident are missing. The episode has parallels to the 1947 Roswell incident, when a UFO was said to have landed in New Mexico.

'For so many years, a lot of good people in Pennsylvania were told by their government that what they had to say was a lie or that they were hallucinating,' said Leslie Kean, a journalist who launched a lawsuit four years ago to force NASA to open its archives.

Washington judge Emmett Sullivan refused to accept NASA's claim that the papers had been lost. He gave it until the end of the year to examine its records. 'Something came down that night,' said Kean.

'NASA has been stonewalling and now it's required to do the search it didn't do in the first place. It's a victory for those patriotic people who didn't like being told that they were making things up.'

Stan Gordon, a UFO investigator living close to the site, interviewed several witnesses. He said: 'It's interesting that [witnesses say] it was made of one solid piece of metal with no panels or rivets, and that it was moving relatively slowly and made almost a controlled landing.'

'I have no doubt the government knows a lot more about this than it has revealed to the public.'

**Landmark Court Settlement Requires NASA To Release Documents On Mysterious UFO Case...**

New York, N.Y. -- On the heels of the news of NASA's attempt to withhold survey data on aviation safety problems, the Coalition for Freedom of Information (CFI) today announced the unprecedented settlement of a lawsuit against the space agency in U.S. District Court for the District of Columbia.

As result of NASA's refusal to release its records concerning the 1965 Kecksburg, PA UFO incident and subsequent stonewalling, CFI filed a Freedom of Information Act (FOIA) lawsuit in December, 2003, as part of a broader FOIA campaign supported by SCI FI Channel.

Presiding U.S. District Judge Emmett G. Sullivan approved a settlement that requires NASA to comb through hundreds of documents in specified locations and provide copies to Leslie Kean, investigative journalist with CFI and plaintiff in the lawsuit, under the watchful eye of the courts. NASA is required to declassify relevant documents, explain any redactions, and to pay Kean's legal fees as part of the settlement.

John Podesta, former Chief of Staff for President Clinton and President of the Centre for American Progress, who has supported Kean's FOIA effort since 2002 commented, "The time to pull the curtain back on this incident is long overdue. Leslie Kean's victory is a triumph for open government and the spirit of inquiry."

Kean's attorney, Lee Helfrich, of the Washington firm Lobel, Novins & Lamont, had made the case that NASA was recalcitrant in its response to Kean's requests under the Freedom of Information Act. "It is unprecedented to have achieved success at forcing an agency to do this kind of extensive historical search under FOIA without Congressional intervention," Helfrich stated.

Kean has been seeking documents about the crash of an unknown object in Pennsylvania that occurred over forty years ago. Witnesses described seeing a fireball in the evening sky, a controlled landing and a systematic military recovery of a spacecraft-like object. As reported by local radio and newspapers, U.S. military personnel cordoned off the area, investigated the site, and left without ever providing a full report of the incident other than to dismiss it as a meteor.

"Finally, we hope to acquire the relevant documents about Kecksburg that are required by law," says Kean. "I look forward to working with NASA on the resolution of the terms set out by the court and to providing the public with the information it has been waiting for."

The US government has for years resisted releasing records on unidentified flying objects when requested under the FOIA. Cfi does not make any assumptions about the origin of the Kecksburg object, but defines UFOs simply as airborne phenomena that have not been

identified or explained.

Additional information on the Kecksburg incident and the NASA lawsuit, including the settlement document, can be found at:

### **UFO Believers And Skeptics Clash At Scientific Conference In Alberta...**

EDMONTON (CP) - There were no laser blasts in the battle between believers and non-believers at a UFO conference in Alberta this weekend, but plenty of sharp words were fired between the two camps.

Stanton Friedman, a nuclear physicist who maintains that some UFOs are alien spacecraft, told nearly 200 delegates during the conference's opening lecture Friday night at the Telus World of Science in Edmonton that journalists and scientists are ignorant of the evidence supporting the fact that interstellar travellers have visited.

Friedman, who believes government covered up an alleged discovery of alien wreckage and bodies in Roswell, New Mexico in 1947, said that many eyewitnesses of UFOs are silenced by a "laughter curtain" and fear ridicule if they report their sightings.

But Jaymie Matthews, an associate professor of astronomy at the University of British Columbia, argued that while he and other scientists have spent years searching the universe for Earth-like planets that would support intelligent life, none have been discovered yet.

"As an astrophysicist, I want there to be aliens here," Matthews told the crowd in his own lecture that followed Friedman's. "I'm not convinced."

Delegates such as David Beatty, a commercial pilot, expressed disgust that believers get marginalized.

"I'm sick and tired of the press covering (UFOs) as just something drunks saw on a beach," Beatty said after hearing Friedman speak.

Beatty said he's seen several things through a cockpit window that he couldn't explain, including a bright orange ball that drifted across the sky once during a flight over Atlantic Canada.

But his friend and fellow pilot Ray Morley, who is also a delegate at the two-day conference, said he's never seen anything unusual in two decades he's been flying.

"That doesn't mean I think he's crazy," Morley said, gesturing to Beatty.

Other delegates at the event, which is bills itself as a science- based UFO conference, include people who analyze UFO sightings from across Canada and the United States.

Friedman, who said he took classes at the University of Chicago with the late astronomer

Carl Sagan, a noted non-believer in alien visitors, argues scientists often make too many assumptions based on limited information.

He said it was foolish to claim there are too few planets in the universe capable of supporting intelligent life, or that it would take too long to get from their planet to ours, because he said we just don't know.

Friedman also poured cold water on the argument that an alien landing like Roswell would be too big to cover up. He said thousands of people worked on the Manhattan project to build the first atomic bomb, but it stayed a secret until one was dropped on Japan.

"There are still things that are classified from the First World War," Friedman said. "Governments can find reasons if they want to cover something up."

Matthews acknowledged that scientists are not always perfect, but took exception to Friedman's claim that non-believers were ignorant.

Matthews, who observes stars through a Canadian telescope that orbits the Earth, said he and other astronomers are looking for planets that aren't too close to their stars, which would make them too hot, or too far away, which would make them too cold.

Sometimes he comes close to finding the right type of planet, only to be disappointed. Despite this, he remains hopeful.

"I believe we will have one Earth-like (planet) in the next few years," he said.

#### **The Melbourne Herald Sun – Australia...**

**21<sup>st</sup> October 2007...**

#### **Queensland Invaded By UFOs...**

Queenslanders are leading reporters of unidentified flying objects, with more than 100 of the 128 recorded official sightings around Australia in the past two years coming from the Sunshine State.

And according to a Queensland UFO specialist, while many sightings were ruled out as stars, planets, meteors and planes, a "significant number" remained unexplained.

UFO Research Queensland's Lee Paqui said the state's hotspots for sightings included the Glass House Mountains, Toowoomba, Warwick, Ipswich and the far north.

"The most common sightings are the orange balls, and white balls that look like stars but move and display very erratic behaviour, like they'll make right-hand turns," she said.

Ms Paqui said many people were still wary of reporting their sightings for fear of public humiliation.

The Queensland research centre began operating in 1956 and was originally called the Queensland Flying Saucer Bureau.

It receives 1000 hits each day on its website [www.uforq.asn.au](http://www.uforq.asn.au) and has sightings dating back to 1939.

#### **Fired NASA Whistleblower To Reveal New Apollo Secrets...**

Dr. Ken Johnston, former Manager of the Data and Photo Control Division at NASA's Lunar Receiving Laboratory during the manned Apollo Lunar Exploration Effort in the 1970's, was abruptly terminated Tuesday morning, October 23rd, from NASA's prestigious Solar System Ambassador (SSA) Program at JPL.

The firing was direct reprisal for Johnston's published account in a New York Times Best Seller, *Dark Mission: The Secret History Of NASA*, of how NASA ordered him, 40 years ago, to destroy key Apollo lunar images and data - rather than allow them to be preserved for academic study and public view.

Johnston will testify at an Enterprise Mission sponsored National Press Club news conference this Tuesday, October 30th (Zenger Room, 9:00 AM), how he disobeyed these NASA orders, secretly preserving the critical Apollo images.

Johnston will then show some of the 'missing' Apollo frames - which confirm the existence of long-rumored 'ancient artificial ruins and technology on the Moon', discovered by the Apollo astronauts but legally classified under the 1958 Space Act by NASA for over 40 years.

Johnston will be joined by Richard C. Hoagland, former NASA consultant and CBS News Science Science Advisor during the Apollo lunar missions.

Hoagland is co-author of *Dark Mission: The Secret History Of NASA*, and head of The Enterprise Mission.

Hoagland will present an imaging analysis of Johnston's 40-year-old rescued Apollo images, comparing them to modern versions apparently currently being 'leaked' by other 'whistleblowers' on official NASA websites. He will also demonstrate and analyze one of the secret technologies retrieved by the Apollo crews, relating to the artificial control of gravity. Click for more information:

#### **Times of India, Calcutta, India...**

**30<sup>th</sup> October 2007...**

#### **UFO Puzzle Has City In A Tizzy...**

KOLKATA -- In the first such incident recorded in Kolkata, an unidentified flying object was spotted in the city's skies early Monday morning.

The fireball, that moved very rapidly and even seemed to change its shape and size, was photographed by a resident of Kalikapur in east Kolkata. Scientists couldn't identify the object though some believe it could be a meteor blazing a trail through the morning sky.

The object, as shown on a TV channel, seemed to alter its shape from a round object to a triangle and then turned into a straight line. It emitted a bright light that formed a circle - almost a halo - and also radiated a range of colours.

The strange object was spotted between 3.30 am and 6.30 am by a senior executive of a private company, who filmed it on his handycam and showed it to the MP Birla Planetarium director D P Duari.

Many others spotted the strange object streaking across the eastern sky and hundreds gathered along EM Bypass to catch a glimpse of the "UFO". Many claimed to have seen the UFO, triggering a frenzy.

The Birla Planetarium director said the flying object, seen "at 30 degrees on the eastern horizon" was "interesting and strange".

"The viewer first thought it was a plane but gradually its brightness increased and it went up and vanished around 6.30 am," Duari said. "No natural phenomenon is likely to last for such a long duration and it is not a meteor either. It is an extremely interesting and strange object," he added.

Scientists were also puzzled by the phenomenon. They claimed it was too early to hazard a guess on what the object could be.

"A cosmic body cannot change its appearance the way this one seemed to do. But an expert needs to observe it for a longer period of time to be able to comment on it. It is very strange and intriguing. Sadly, TV pictures are not enough to make a conclusion," said Kamalesh Kar, astro-particle physicist at the Saha Institute of Nuclear Physics.

#### **The New York Sun - New York, USA...**

**9<sup>th</sup> November 2007...**

#### **Clinton Library Releases Files On UFOs...**

Under fire for its sluggish processing of files from President Clinton's White House, the National Archives released files and photographs yesterday responding to 14 Freedom of Information Act requests from members of the public.

The records appear unlikely to contain any political bombshells, though there could be fodder for the tabloids. Many of the requests sought information about the Clinton White House's records on unidentified flying objects or UFOs.

The files detail the predilection of one of Mr. Clinton's chiefs of staff, John Podesta, for the extraterrestrial-laden television series, "the X-Files." A listing of the newly- released files is available on the Web at <http://www.clintonlibrary.gov/textual-foia.html#0313>.

In a recent court filing, the Clinton Library's acting

director, Emily Robison, said it had 287 pending requests for information from the Clinton Library's archives. The responsive records could total 10.5 million pages, she said.

So far, the library has released records in response to just 18 Freedom of Information Act requests, according to the library's Web site.

At a debate for Democratic presidential candidates last week, one of the moderators, Timothy Russert of NBC News, questioned Senator Clinton about her husband's decision to ask the library to consider for withholding certain records about Mrs. Clinton, as well as other files.

Mr. Clinton later called the questions "breathtakingly misleading." He noted that the letter he sent the archives dated from 2002, long before Mrs. Clinton's presidential bid. He also said the thrust of the request was to speed up release of some records.

One of the former president's aides, Bruce Lindsey, said in a statement last week that Mr. Clinton had not blocked any record from being released.

The bulk of the delays in responding to the public requests, which often focus on substantive issues like Mrs. Clinton's Health Care Task Force, seems to stem from thin staffing at the library, which is run by the National Archives. Only six staffers conduct the page-by-page review required to weed out classified and private information, as well as information a former president is entitled to withhold for 12 years after leaving office.

Asked by e-mail about the newly disclosed files and any possible impact on Mrs. Clinton's presidential bid, Mr. Podesta repeated an "X-files" catch phrase: "The truth is out there." He declined further comment.

More substantive records about the Clinton White House appear to be on the verge of release.

"We have had a breakthrough," a National Archives spokesperson, Susan Cooper told The New York Sun yesterday. "There should be a significant addition of materials coming up in the next few weeks."

#### **Argentina: Region Still Astonished by Police Officer UFO Case...**

The eyewitness accounts of four law enforcement officers who claim having seen alien beings in the wilderness near Irene have given rise to comments

#### **Group meeting DVD winners Draw :**

**October 2007 : G. Lovegrove**

**November 2007 : K. Woodward.**

**December 2007 : R. Fisher.**

among locals. Were there other witnesses to the mysterious episode?

Residents of Oriente and the region are exchanging bewildered views on the police testimony concerning the encounter with humanoid beings on Wednesday in the vicinity of Irene.

Local residents are making their own remarks and speculating, but the alleged episode, by virtue of having been witnessed by four police officers, sets aside any possibility of hallucination or incorrect perception. The colour and shade of the light, indicated as white with greenish flashes, and the strong odour reminiscent of sulphur or gunpowder, followed by a report comparable to a thunderclap, all agree with the description of the phenomenon.

We were sleeping when we heard a noise that was similar to a tire blowout. It jolted us and caused the windows to rattle for a moment. When we looked out the window, we saw nothing unusual and we gave the matter no importance, said a woman who was surprised by this noise on Wednesday morning. Her testimony is added to that of other locals who heard the rumble but paid it no attention due to the time at which it occurred, and who corroborated their own perception the next day after hearing stories of a UFO manifestation.

Added to these stories are ones from people who drove along rural roads while engaged in farming tasks and observed the white flash in the fields. All conjectures that can be put forth regarding the subject bring up a reality that goes beyond human reason and consequently, leaves behind an aura of mystery to some and of open incredulity to others.

The fact remains that a group of people shared an experience this week that they will not forget for the rest of their lives. This story shall certainly be added to the list of similar experiences transmitted orally by their protagonists, and theories ranging from mistrust to involvement by NASA itself, covering an array of alternatives. A visit by four aliens -- standing 80 centimeters and with large gray eyes and greenish skin - shall form part of the local folklore.

**Gulf News, Dubai, Arab Emirates...**

**14<sup>th</sup> November 2007...**

**UFOs Are Not Alien To Everyone...**

The mysteries of our universe would have us believe that there's more to life than what we already know. The fact is, our knowledge is bound to be limited when it comes to unravelling the secrets of our infinite galaxies and we shouldn't always be able to define objects.

From that standpoint, it is fascinating to learn that a group of American pilots have demanded their government reopen an investigation into unidentified flying objects (UFOs) which was closed in 1969. They are convinced that not all UFOs can be explained away in "down-to-earth, conventional terms".

UFOs have fascinated many for some time. People are split on whether or not UFOs exist. Some believe

them to be a celestial phenomenon while others, the majority that is, think they are simply fictitious. Investigations cost money and can be time-consuming. Perhaps the US government can investigate other more pertinent issues facing it. Just a thought.

**The Turkish Daily News - Istanbul, Turkey...**

**19<sup>th</sup> November 2007...**

**UFO Museum Draws Thousands Of Alien Buffs...**

Close to 25,000 people intrigued by Unidentified Flying Objects (UFO), aliens and other extraterrestrial beings have satisfied their curiosity at the UFO museum in the Aegean city of Denizli since it opened in 2005.

The museum was established in Istanbul in 2002 and opened in Denizli in 2005. Nearly 25,000 people visited the museum since it opened in Denizli. We invite everyone to the museum because when they come, question marks on their mind will be removed, Kemal Kerem Dalyan, museum officer, told the Anatolia news agency.

Daylan said that the museum was created by bringing together the experiences of foreign and local researchers and scientists: Our goal is to inform people about the future. Visitors are pleased that they can obtain all the information about extraterrestrial life forms.

At the museum visitors can browse through the archives of organizations that are conducting research on the topic, including documents and reports, and of course photographs of extraterrestrial beings. The most popular section is undoubtedly the statue of an alien holding a cigarette in its hand, as well as mock ups of flying objects and models of relevant archaeological findings.

Entry to the museum is free.

UFOINFO Sighting Form Report

Location: Isle of Wight.. Seaview

Date: Sunday, 26 august 2007, 10 pm

Approach Direction: west to east

Departure Direction: south

Witness Direction: south

Description: viewed from our yacht anchored approx one mile north of Seaview yacht club. object came from the west then became stationary over Seaview there was no sound, initially the object appeared to be a helicopter emitting red glow. then climbed rapidly to the south, became orange then yellow and suddenly vanished from sight. the pattern and manner of flight was markedly different from any fixed or rotary wing aircraft that any of the four souls aboard had ever witnessed.

Colour/Shape: round red yellow orange object

Height & Speed: approximately 1000 ft approach speed around 150 knots, then geostationary for eight to ten minutes. then climbed rapidly in a southerly direction and suddenly became invisible. departure appeared to be at impossibly high speed.

TV/Radio/Press: this is our only report of what we witnessed.

**SG25/07**

comment: Hi

We were going north up the A3 last night 22 Sept 9.30ish and to the east around Horndean we saw 20 orange lights slowly traveling south quite high up. My wife I and my daughter all saw them. I've never seen anything quite like it. Have you had any other reports?

**SG26/07**

Bognor Regis, West Sussex.

Wednesday last week – 4<sup>th</sup> October 2007

Thursday – front page

Witness : Upstairs

Daytime, Clear sky, 6 pm, sun pink bright

2 footballs coming over trees, close together, first thoughts – balloons, pinkie huge on them, sun to the R. Moved away to L coming towards, slow drifting apart 2 mins later... Round orbs, turned flat looked like : oscillating (Not all the time), binoculars – see craft of some description... wife – fragmented diamonds – made up of panels. Changing shape? 4 witnesses.

Over top of house – 23 fighter planes headed towards objects...

UFO's moving dead straight away towards the sea – planes directly heading towards them. No wind. UFO's now pulsing lights – planes heading toward them. 1 plane flew straight at the lights – other one over shot. Plane veered right and joined up with 2<sup>nd</sup> plane. Planes – 15,000 ft – UFO's same height. 3<sup>rd</sup> plane – military plane – older type? Fm right, circled cloud and went away again. Same co-ordinates as planes / UFO - radar. Seen in the distance about 5 mins. Phoned police – records. Sussex police incident number Jude inc no. 314 as of 5 p.m. no other reports 4.10.07

**SG27/07**

Date : 30th September

Location : Bursledon

Hello, I'm hoping you may have some information on 3 ufo's seen over the Bursledon area last night. Me and my girlfriend were in the car park of the Fox and Hounds pub when we saw 3 objects moving across the sky. Two of them were close together the other 3x the distance ahead. There was no noise as normal with planes and helicopters. They were orange in colour with a still light. I thought of satellites maybe in a low orbit or falling down after they had ended their usefulness. They seemed to be "flying" straight though. A couple of planes came over later and they looked as you would expect, flashing beacon and wing lights. I would be interested if you've had any other sightings from last night. The time was about 8pm. Cheers.

UFOINFO Sighting Form Report

Location: Hamble, Southampton

Date: 30th September 2007 evening about 7.30 pm local time

Approach Direction: south east

Departure Direction: south/west

Witness Direction: south/west

Description: my sister in law saw 3 objects in sky burnt orange colour, and then another three they were very quick she managed to get a photograph on her mobile of the second lot of three, there were a number of people there.

Colour/Shape: burnt orange no sound

UFOINFO Sighting Form Report

Location: Netley Abbey Southampton Hampshire England

Date: 09/30/2007 local time 1940 hrs

Approach Direction: North to South

Departure Direction: to the South

Witness Direction: West

Description: 9 friends & family members firstly saw 3 lights travel over my house. Whilst watching them a further 4 lights appeared from the horizon - all travelling in the same direction. large tree obstructed our view and they did not reappear. we think there was low cloud.

Colour/Shape: Burnt orange/Yellow in colour. Round circular in shape

Height & Speed: Quite low. not the height of usual aircraft. Movement slower than aircraft. Appeared to be 'bobbing' slightly and although in line they appeared to be independent of each other.

TV/Radio/Press: We did not report the sighting. But did phone the local paper to see if anyone else had seen/reported it. They haven't. The paper seemed keen to do a feature but we as a family are just interested in what we've seen and if there is any reasonable explanation.

Shape: Light  
Duration: a bit over a minute

White light/object moving across the Night sky

We (me and my friend) had left a public bar in the village of Chawton, Hampshire and were walking along a pavement back to where my vehicle was parked (passing several adjoined houses) as we got near to the vehicle I was looking into the night sky and observed a white light moving across the sky (this object was at an altitude of nearly a thousand feet) I said to my friend "hey what's that light in the sky it's moving!!" I pointed it out to him but I'm pretty certain he didn't see it. I watched it for a minute and then we left. I'm puzzled as to what this object could have been it DEFINATELY wasn't a shooting star, a bird, The Moon, a firework, or a weather balloon, a glider, helicopter, or the ISS, there was something strange about this object it could have been an Aircraft but I'm not sure. Could it have been a blimp or a satellite? Any suggestions would be a bonus.

#### **SG29/07**

Hi,

I was at work at the Rhino club Bedford place Southampton Friday night when I went out the back to get some air and looked up in the sky at the stars as I usually do.

It was a really clear night and I saw a tiny white speck that looked like a distant small star up with all the tiny stars moving in a straight line which I first thought was a satellite like I have seen before.

But it was moving a lot faster than ones I have seen before, and in the time I thought these two things it stopped dead for a second or two and then did a half u turn and shot off at unbelievable speed and covered the patch of sky I could see through the buildings in a second, it must have been traveling at an amazing speed.

I had no time to get my phone out to take pictures or video as it was over so fast, though I doubt the footage would have been any good anyway as it was so far away and phones are not that good.

I thought I would report this to you so you could see if anyone saw such a thing or managed to get any footage or it.

Thanks

Date : 6<sup>th</sup> October 2007

Time : 12.20 a.m.

#### **SG30/07**

Could you confirm or deny that I had a possible sighting of a UFO this evening. At approximately 11.20 pm I was in my back garden and witnessed a large red/orange light coming from an easterly direction. It seemed to be climbing rapidly, made no sound and traveled towards the west. I watched this for about a minute, it gradually became smaller as it was seeming to climb until it became too small to see. At first I thought it was a firework going up, but when it didn't

explode it caught my interest. As it approached it seemed to be slightly glowing, (rather as though there were flames around it, not a very good description but the only one I can think of at present). I live in Fareham, near Portsmouth, and the light came from the Portsdown Hill direction. There is some light pollution in this area, but not a great deal. This light was very bright initially, and approximately four times the size of the aircraft that frequently go over. Seconds prior to me seeing this light, an aircraft went over - we are close to the stacking flight path for Gatwick, so I am used to seeing and hearing aircraft going over, but this was much larger, moving faster, and as I said made no sound. I contacted my daughter who is staying with a friend a few streets away, and she was in the back garden with some friends and also witnessed the same thing.

I would be grateful if you could pass any comments as to what I may, or may not have seen.

#### **SG31/07**

October 24th 2007: Near Guildford, Surrey and Aldershot, Hampshire, England

UFOINFO Sighting Form Report

Location: near Guildford, Aldershot, UK

Date: 24/10/07

Time: 18:03

Number of witnesses: 1

Number of objects: 1

Shape of objects: Light/Globe/Sphere

Weather Conditions: Still well lit sky around one hour before sunset grey clouds but good visibility.

Description: Hi, I was driving west bound on the A31 when I noticed a bright reddish globe of light floating above the nearby fields on my right hand side, across the road toward the direction of Aldershot (north from my position). First I thought it was the back of a low jet fighter plane backburner, but the size and colour of the reddish hue was more similar to a flare than a plane especially the bright pink/reddish colour, it had a bright centre like a star but pink in colour and a reddish exterior with no smoke, sound or the normal burning flicker of a flare, it also kept motionless in the well lit sky (it was around 18:03), floating at the same vertical height for around 1 minute after spotting it. As I was driving at around 60 miles per hour it was impossible to tell the exact distance between me and the light and wither it was completely motionless, but I would estimate it was standing there at a distance of around half to one mile from where I was. After around one minute of watching it, I tried to stop the car to have a better look, as I also had a good camera on my phone, but there were no place to stop. I decided to do a U-turn to watch the light from the closer other side of the road, when I realized it had already disappeared with no trace. It is impossible to tell if it diminished or flew away as there were trees in between when I realized it completely disappeared.

The following was received via our website :  
comment: I don't know if what I saw was true but my husband is my witness at 6.30 am this morning we saw what looked like a star that was moving from side to side then got close we saw it had lights different colours hovering then it moved high up in the sky and stayed there. it was dark this morning so you could see it clear, but who would believe this. I do think there is someone or some thing up there.

**Birmingham UFO Group...**

Hi, we are BUFOG Birmingham UFO Group. Mark Martin and myself Craig Lowe, We would be grateful any anyone could forward us any news and updates, images, contacts of people so we can build our contacts. We will put a link to anyone's site or group on our site and will state the credits are yours. Please visit our site and please keep checking as we are currently updating daily. We strive to be like you and hope we can have your help and support. We are new but full of passion.

P.s please pass any comments on our site and any ideas welcome.

Please visit our web site at [www.bufog.com](http://www.bufog.com)

Email - [craig@bufog.com](mailto:craig@bufog.com)

**SIGHTING REPORT...**

At approx 7.00 pm this evening I witnessed a large black triangle flying over my house from east to west, 3 red lights, one at each corner. It took a very long time to pass over before it disappeared. I was travelling so slow I had enough time to grab my camcorder, get my girlfriend out of the house who also witnessed it and make a phone call to colleague Mark Martin. Approximately 3 x the size of a commercial airliner, no noise. Girlfriend said surely that aeroplane must see it, there was a plane nearby. As soon as it disappeared we could hear the roar of military jets. I will now analyse the footage as I believe the sound of the jets must be on there also.

Please visit our web site at [www.bufog.com](http://www.bufog.com)

**International Network of Association,  
Organizations and private investigators,  
responsible for the study of the phenomenon OVNI**

Good morning,

if I contacts you today, it is to inform you of the existence of La Centrale Ufologique (International Network of Association, Organizations and private investigators, responsible for the study of the phenomenon OVNI). All Members of the Réseau work in common, help if needed and have priority is to never let a witness in its isolation.

The Central Ufologique is a network of ufologues, therefore, investigators and presentations across the planet ! Here is how we operate:

1/ - A contract is established between La Centrale and private investigators, of Ufologues leaders belonging or a combination... this contract simply says that when a testimony is given to The Centrale, this last contact the ufologue located in the region of observation and it undertakes only to conduct a thorough investigation. Similarly, if the private investigator or the Ufologue member of an association, receives a testimony, he is committed to the report to The Central by placing this testimony in the Department associated (see list of Departments) Subsequently, the investigator filled a standard form, entitled "Report" that he returns to The Centrale. This allows the ufologue in question, to conduct a supplementary survey for his account or that of his association (he keeps the original of its investigation and not sends back a record, which allows to avoid conflicts between ufologues). If you want integrate this Réseau, please contact us to the following address: centrale-ufologique@hotmail.com

2/ -This system operating for all the countries of the world, we end up owning a genuine international network of investigators without there having competition between organizations or associations or ufologues! We therefore avoid conflicts while not interesting that the main: the Witnesses and Victims! 3/- Creating a site identical to that in each participating country, namely:

- retailer each region or ministry
- indicating associations Members of the country
- including the comments reported in The Centrale of countries and placed on the basis of regions or departments of the latter.

In this way, we end up having not only a substantial number of investigators but also a considerable number of témoignages and therefore information! The whole located totally available free of charge! It is obvious that the personal information concerning the witnesses and/or victims will not be disclosed! If adventure, was the identity of a witness or victim in a statement, it would be WITH written agreement and signed by the said witness or victim !

To learn more, thank you to please contact us to the following address: centrale-ufologique@hotmail.com It is quite obvious that for that La Centrale works properly, we need you! So do not hesitate, join The

Centrale Ufologique !

An annual Information Bulletin will be available from the opening next... The Bulletin of Information will include the number of observations identified as well as the accounts made of investigations... and more.. It will be free and sent on request addressed to the following address: lacentrale@hotmail.fr For information and listing in The Centrale Ufologique, thank you to contact us at the following address: centrale-ufologique@hotmail.com

---

**Ernie Sears bows out gracefully...**

I am very sorry to have to make this decision after a long process of giving it much thought day and night... I write this at 5.20 a.m. prior to meeting with Steve later this morning on the 2nd December and subsequently to the group meeting in November 07 where the attendance reached a low of exactly 4 members... just one more sign of the deterioration we have experienced over the months and, indeed, years. Plans for the "move" have foundered on my part as a "dumbing down" with no guarantee it would inspire a boost to the diehard attendees from the number "out there" we never see or even HEAR from. Plus my disquiet at the remorseless trickle of those who have left over the YEARS... my close friend Davina the current latest such. As probably the only actual abductee & frequent experiencer etc in SUFOG I feel I will be better off with the Witness Support Group I have been columnist with since 19990... individually and collectively we are all of a kind and very dedicated and determined to THE TRUTH WSG members have awesomely experienced... indeed are still doing so.

I feel very sad that Ernie and Davina both seem to feel that SUFOG is going no where but we have achieved so much in the past 17 years. I must admit 17 years is a long time for any UFO group to survive and we will go on and with our magazine, maybe not change UFOlogy, but still have our foot in the door.

UFOlogy is such a fickle subject but we MUST stick together. Unfortunately, Ernie feels that the WSG is for him and this may be true and may I wish him luck.

This will mean that there will be changes within the group and some may hurt but as they say, no pain no gain (See editorial).

In the mean time I will be doing the magazine reviews and hopefully with the changes to the magazine and who knows what else awaits SUFOG in the coming months, but we must say goodbye to Ernie & Davina.

Steve Gerrard  
SUFOG Chairman

### The Roberts File. (Part 3)

News of bad explosion in the mines of West Virginia, USA.

Nov 25/68

News of mine in West Virginia where rescue teams have found NO TRACE of 78 men believed to be trapped down there. (West Virginia is one of UFO areas also area of "Mothman" and M.I.B).

Dec 6/68

News on radio – A young man by the name of Brian Andrews in Coventry started his own investigation group on the subject of UFO's and advertised for others of similar interest to join him. He had a phone call from a man speaking in perfect English wanting to know in detail about his knowledge of such things – what had he and other seen? Had he seen an alien working on a UFO in Coventry?

The second occurrence was at a friends house where they were talking about UFOs and the lights kept going up and down – four times its usual volume it decreased in light – the third and most frightening happening was when he was working under his car and when he came out he found someone standing beside it with a "reddish orange face, and it was glowing!" He didn't know whether to dive back under the car and get a tool for use in self-defence – but he was petrified – he just "froze" and as he watched, the creatures face was transformed into that of an old man of about 60 years! The group is now disbanded.

Dec 9/68

Julian returned home about 11 o'clock at night – sky overcast, cold. Reported seeing in High Town direction a brilliant white light with a red light above it, pulsating. He said he thought the white light was too bright and too big to belong to any aircraft. As he watched, it travelled along, he was amazed to see it describe a loop in the air and disappear behind some trees!

Dec 10/68

At work, Janet says her auntie saw something last night too! in the direction of High Town again. This time it was two brilliant lights, and they must have been fairly low, because she observed a "body" between them, which she took to be some sort of plane and therefore did not continue to watch. To begin with she thought the lights were too bright for an aeroplane!

Dec 14/68

Saturday. Walking into town with Martin, when we noticed a peculiar long bodied plane with little wings situated in the centre of it. Never seen one like it before. A frosty day, but no trail from plane which was fairly high up. We thought it might have been an experimental plane, and I wouldn't have mentioned it, except for the fact that I have just read an account in Nov / Dec issue of F.S.R. of a similar plane that turned out to be a UFO. The report is compiled from La Razon and La Nauoin of July 25/1968 and comes under the

heading of Argentina in World Round Up. (Page 32)

Dec 19/68

My old friend the Loch Ness Monster turns up with a mate! Scientists using new echo sounding device detected "monstrous movements" in the depths of Loch Ness.

Two scientific engineers involved in the discovery, showed on TV a film of the echo soundings, which pictured an object rising from the floor of the Loch to another stationary object situated nearer the surface of the water. The object was reckoned to rise at the rate of 100 ft per second. Moreover, it made two journeys from the bottom of the Loch up to the stationary object, which would discount any random movements of "tree logs, rubbish, shoals of fish" etc. (Did I hear correctly that the object(s) was 50ft across?).

Underwater UFO's have been operating at tremendous speeds and at great depths under the oceans and seas of this world. Their interest in our rivers and reservoirs and water supply has caused speculation and concern for some time. It is in my personal opinion that the Loch Ness "Monster" is of possible UFO phenomena – that the "objects" are solid, or if alive, placed there as part of a survival test.

Dec 20/68

News of America letting off a nuclear device under the Nevada desert, 50 times more powerful than that used near Hiroshima. (Merry Christmas everybody!) The shock waves were felt over an area of 12 miles radius and observers saw the ground rise above the explosion like the wave of a sea.

Jan 10/69

News of Condon Report being a washout as far as official recognition of UFO's goes. Scientist and Air Traffic personnel state that there is no scientific evidence of UFO's coming from anywhere extraterrestrial. That all sightings have been hallucinations or the usual putting off brush.

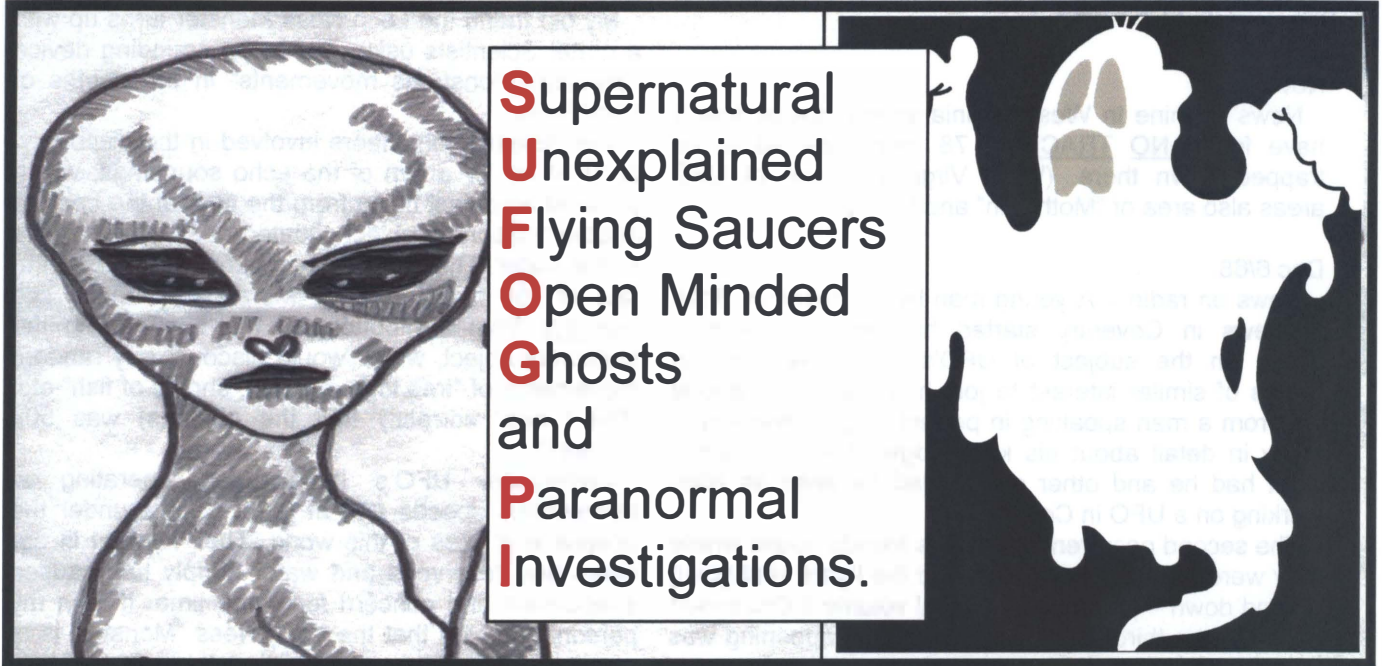

Well now all American citizens can rest comfortably in their beds at night, knowing that the bright flashing object that paced their car, or sat on the road in front of them, was only a poor old tired weather balloon.

Jan 21/69

Just read book that mentions Loch Ness as being 900 ft deep in places, that an Earth fault lies deep beneath its surface. Same book mentions foot steps following climber on top of next highest mountain to Ben Nevis.

(Part 4 Next magazine)...

## THE PARANORMAL HAS ARRIVED IN SUFOG...

**The Argus-Press - Owosso, Michigan...  
1<sup>st</sup> November 2007...  
Crop Circles Puzzle New Haven Couple...  
New Haven TWP. - It's spooky.**

Not necessarily spooky in a Halloween sort of way, but strange nonetheless.

Jerry Buginsky, who began farming on his own in 1962 and now works more than 300 acres near his North State Road home in New Haven Township, has never seen anything like it. Neither has his wife, retired Durand and Byron school teacher and former Shiawassee County Commissioner Mary Buginsky.

Unexplained to the Buginskys are crop circles, or field rings, that first appeared two months ago in a field of clover close to their farm.

All the vegetation ... alfalfa, weeds, everything ... was dead; just not growing, Jerry Buginsky said of the first circle. It was 10 feet in diameter on the inside and 12 feet around the outside. I walked it off.

Jerry discovered an even larger circle of dead vegetation not far from the first that same August afternoon. Later a third circle was spotted in the clover and, in early October, two more unexplained spheres were discovered in an adjoining soybean field.

Crop circles, many of which have proven to be manmade, date to the 17th century. Some believe the formations in farm fields involve flying saucers or some other out-of-this-world phenomenon.

So, what's going on with the Buginsky farmland?

Ever the educator, Mary Buginsky thinks she has the answer. Jerry Buginsky isn't so sure, although his theories were accompanied by a slight grin of mischief.

Chemically treated waste from an airplane, or airplanes, Mary responded when asked to explain the unexplained. We're in a pretty heavy (air) traffic

pattern ... I mean, there are planes going over all the time. I think they saw this wide-open farm area and they unloaded their stuff. It was something from the sky, anyway.

Jerry, after listening to his wife's reasoning about the circles, said he believes it's one of two things - chemicals or extreme heat. Extreme heat like a flying saucer might leave while landing or taking off?

Jerry wasn't willing to go that far, although he reiterated: I just think it has something to do with chemicals or something very hot. There are absolutely no signs that they were manmade. There's nothing to indicate anything like that.

Just last Monday, during his farm travels, Jerry related spotting more dead-vegetation circles off Ditch Road, farther to the north of his initial sightings. I've never seen anything like this in all my years of farming, he said. It's pretty strange. Spooky even.

**The Daily Mail...  
3rd December 2007...  
Science & Tech Section...  
By RICHARD SHEARS...**

Pilots' 'out-of-body experiences' responsible for more than a quarter of fatal air crashes.

Some pilots will suffer the illusion that they are sitting on the wing of their aircraft watching themselves in the cockpit, according to an extraordinary official report released in Australia.

Every pilot will at some stage lose all sense of direction, height and speed, drawing attention to spatial disorientation (SD) - one of the most common

factors in plane crashes, according to a report by the Australian Transport Safety Bureau.

Aviation medicine specialist Dr David Newman said 90 to 100 per cent of pilots experienced SD, which have been linked to between 15 and 26 per cent of fatal crashes worldwide.

Dr Newman drew attention to the illusion suffered by some pilots who gained the impression of sitting on the wing looking at themselves flying the aircraft, but there were other dangerous misconceptions including a feeling that the plane was falling when it was merely slowing down.

Another effect of SD was a false sensation of the aircraft rolling and another illusion suggesting the plane was flying straight ahead when it was actually turning.

Drawing attention to the "sitting on the wing" illusion, Dr Newman added: "The knife-edge illusion gives the pilot a sensation that the aircraft is precariously positioned in space and extremely sensitive to control inputs."

But he also referred to what he called the "giant hand illusion," which gives the pilot the sensation that the aircraft is "intolerable of control inputs and seemingly immovable in the air, as if held aloft by a giant handall [sic]."

The illusions, he said, often occurred when pilots were not busy while flying the plane.

"While seemingly bizarre, these illusions are generally associated with high altitude flight where the pilot has a relatively low level workload."

"Under such 'fish bowl' conditions, the brain can wander and generate these strange illusions."

Dr Newman's report said pilots should be aware they will experience SD sooner or later.

"If a pilot flies long enough as a career or even a hobby there is almost no chance that he or she will escape experiencing at least one episode of SD."

"Looked at another way, pilots can be considered to be in one of two groups: those who have been disorientated and those who will be."

The specialist said he issued the warning so that pilots could take measures to reduce the impact of SD by flying when fit.

They should not fly under the influence of alcohol or medications, which increase awareness of spatial disorientation illusions.

### **Hampshire Crop Circle Formations 2001...** **A gallery...**

A bit short on the old paranormal in the Hampshire area this issue, so I thought that I would include some photographs of crop circle formations that I took in 2001 and a couple of ghostly images that have been sent to us in the past. If you have any images of the paranormal, crop circle formations or anything else, then send them in and we could feature them in the magazine....

**A272 Chilcomb Down (Above)**

**A272 Longwood Warren (Above)**

### **A ghostly image of the departed...**

This image shows the image of a person, who sadly died and had been laid out in the coffin in the very room this image was taken in. The witness did not see the image prior to the picture being taken. What do you think this image could be?

Lights in the sky...

On Saturday October 20th, my husband and I were visiting friends who live at Hiltingbury. We arrived at 7.30 p.m. and on getting out of the car were immediately aware of two very bright orange lights in the sky. We quickly called our friends, who watched these lights with us.

They were travelling north to east direction, at a height of approximately 1,000 ft although it was difficult to judge accurately. They were completely silent, and we watched them for perhaps less than three minutes before they gained height and disappeared. They were travelling completely in unison, at a distance from each other of about four or five moon widths.

I phoned the Daily Echo the next day to ask if anybody else had reported them, but they had not. Our friends asked around and could not find any other witnesses.

Although this happened some three weeks ago, we are still puzzled by what we saw, and feel sure there must be a simple explanation. Can anybody enlighten us?

(As of the 2nd December, SUFOG has not been contacted by the newspaper regarding this sighting and we were unaware of this incident until the item appeared in the Southampton Echo on the 1st December. Another case of a local UFO group not being contacted).

**Edwin William John Gerrard**  
**Born : 15th December 1941**  
**Died : 30th December 2007**  
**Aged 66**

This magazine is dedicated to my later father Edwin William John Gerrard who sadly passed away at 2 a.m. on Sunday the 30th December 2007. He will be sadly missed and this is one of the reasons now, that I am finally chucking the towel in. My mother will need my support over the coming months and into the future and I have no more stomach for running a UFO group single handed. May my dad be at peace with the world and at rest with himself.
